

PLAYGROUND EQUIPMENT FOR ALL AGES

JUST ADD IMAGINATION

## Just add NetPlay USA

At NetPlay USA LLC, we are dedicated to the science and craft of play.

NetPlay structures and adventure play products provide everything your park, playground, or recreational areas need for the perfect combination of challenging fun and adventure.

NetPlay's innovative structures are made from Netform™, a steel-reinforced rope with a polyester braid comfort-grip surface ideal for high-traffic areas. In addition, our connecting fixtures are incredibly resilient. These features make for an exceptionally comfortable play experience with no sharp corners or edges.

To guarantee long-lasting quality, our material is scientifically tested for its UV resistance by simulating the behavior of materials in real outdoor situations, ensuring components do not become brittle or fade over time.

We have items in stock and ready to ship from our Connecticut USA headquarters. Contact a NetPlay USA representative to get started on your dream play space.

Through HUCK Seiltechnik, many of our 3D Play Structures are IPEMA certified as meeting current ASTM F1487 and CSA Z614 Standards for Public Use Playground Equipment.

Work with NetPlay to turn your park or playground into a destination. Contact 860.531.2391 or [sales@netplayusa.com](mailto:sales@netplayusa.com) or visit [NetPlayUSA.com](http://NetPlayUSA.com).

# Climbers

## JUST ADD SPIRIT.

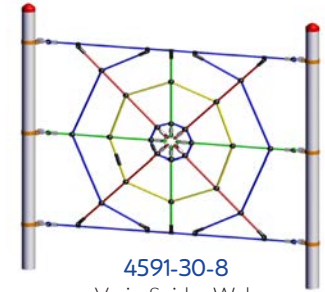

Kids learn to take risks while climbing, balancing, and engaging in open play. NetPlay Climbers' colorful square and rectangular meshes are the perfect focal point for any park or playground.

# Spinners

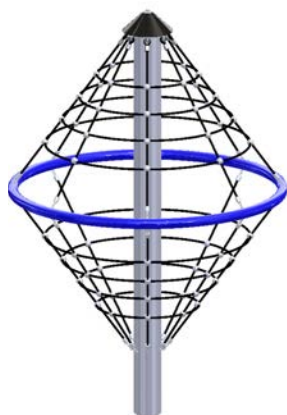

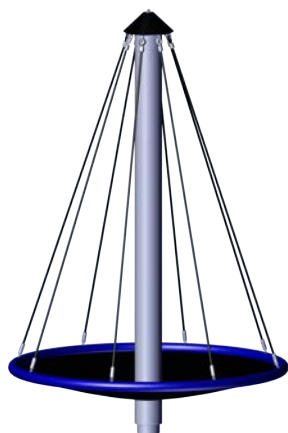

## JUST ADD MOVEMENT.

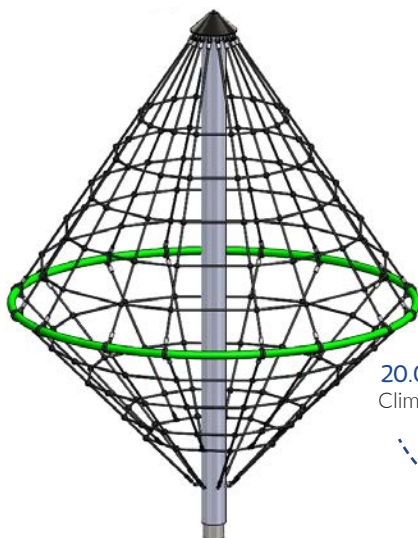

Put a new spin on your playground equipment with NetPlay's Spinner Series. These structures help build balance, strength, and social development. As a single attraction or the highlight of the park or playground, this freestanding equipment can accommodate a group of kids so friends can play together.

# Haiger Adventure Course

## JUST ADD SUCCESS.

Coordination, balance, spatial awareness - every child develops at their own pace. NetPlay Haiger Adventure Course elements combine these developmental milestones with exciting play structures.

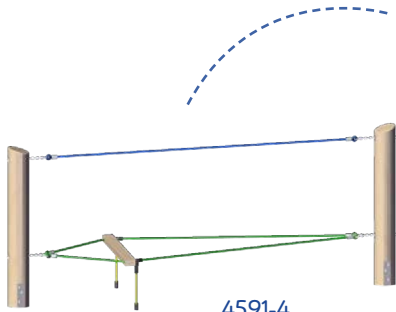

Steel posts or Robinia wood posts available.

4591-2  
Rope Ladder

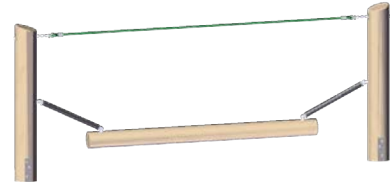

4591-3  
Climbing Net

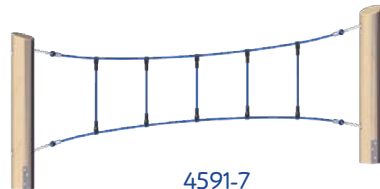

4591-4  
Balancing Rope

4591-5  
Rubber Hammock

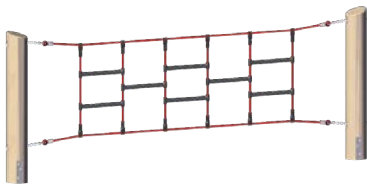

4591-9  
Wobble Beam

4591-7  
Slackline

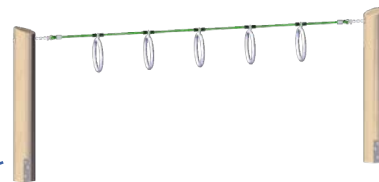

Robinia Wood is not only visually pleasing, but also naturally insect resistant and incredibly strong.

4591-12  
Climbing Rungs

4591-14  
Clambering Loops

4591-13  
Holding Rings

Use zones and space required are variable and determined by your chosen course configuration.

For pricing, ordering, or additional information on product options and details, contact a NetPlay USA sales representative. Haiger Adventure Course elements are only available in 16mm. To indicate choice of Robinia wood posts in place of steel, add -R to end of item number when ordering.

# Bouncers

## JUST ADD JOY.

NetPlay USA in-ground Bouncers provide a safer way of playing, as children will not fall from a great height. In addition, the Rolli is designed for use with a wheelchair. The flexible, linked area produces gentle motion regardless of a person's weight. The soft-bounce surface is low-tension and provides a relaxed bounce that keeps users comfortable. The compact size means a companion can be in direct contact with the wheelchair user.

Mix and match to create a truly custom bouncer that will keep kids smiling and bouncing.

## SAFETY SURFACING

NetPlay Bouncers come with safety surfacing tiles. This material is customizable in a whole spectrum of shades.
