A Company History

Thank you for taking a moment to review our sales brochure. This catalog includes many new and exciting products for your park and playground needs. Started in 1995 by two playground representatives, Childforms® was founded on the principle that by offering quality products at a fair price, with excellent customer service, we could set ourselves apart within the playground industry. Twenty plus years later Childforms® can now provide everything needed to complete the playground of your dreams. While we continue to grow we stay true to those founding principles of offering the highest quality products at a fair price, and provide unparalleled customer service as well as a loyalty rewards program second to none.

In 2010, Childforms® proudly introduced our new 120,000 square foot operations facility to better accommodate our growth and product offerings. Childforms® offers a variety of color combinations to meet our customers' needs. We also utilize the latest design techniques and CAD software to provide our customers with the highest quality visual tools to aid in their purchasing decision.

As always, the safety of children is first and foremost in the design and manufacturing of our products. With that in mind, our products contain no phthalates or other toxic substances. All Childforms® products are engineered to meet or exceed CPSC and ASTM guidelines and standards. Thank you again for your consideration of Childforms® products for your playground needs. Feel free to contact us with any questions or to find a local representative of our products. All products may be subject to minor design changes.

STR-35913

Rocky Mount Playground Mooresville, North Carolina

Rocky Mount is the epitome of creativity. Musical flair and custom surfacing make this playground as unique and creative as the children enjoying the beautiful space. The tunnel slide, climbing activities, rock climbing, and swinging ensure every child is sure to have fun and excitement.

Actual colors may vary.

See website for more details.

Natural Play Equipment

NatureROCKS play products are ideal park and playground pieces. Children are drawn to their natural look and to the limitless play opportunities they offer. In addition to having fun, children will develop balance, coordination and gross motor skills as they hop, walk and climb from stone to stump to log. Each piece is artfully designed to resemble real rocks and fallen trees with wood grain and bark finishes. They are constructed of durable glass fiber reinforced concrete. See website for information on appropriate age ranges.

Dark Gray Granite

Rust Sandstone

Boulders

Add a dynamic and authentic climbing experience with climbing boulders, the most realistic climbing boulders on the market today.

The thoughtful design invites participation by a variety of ages and ability levels - from children to experienced adult rock climbers. Climbing is not only fun, but also encourages problem solving while developing strength, balance and endurance. In addition, climbing boulders are a great way to incorporate nature play into your playground or park.

Net Climbers

Visit our website for all available options.

Net Climbers

All net climbers are constructed from a six-strand steel core rope that is strong yet soft to the touch. Easy to climb and maintain, our net climbers will last for years in even the harshest outdoor environments.

Shredded Bonded Rubber

Surfacing

A Childforms® representative can help you choose the appropriate surfacing to meet your playground needs. Whether you're looking for a high end custom poured in place surface or the economy of an engineered wood fiber surface, Childforms® has the solution you need.

Installation

We offer playground equipment sales, safety surfacing, border containment systems and installation services to meet all of your needs. All equipment sold and installed is specifically designed to meet or exceed all ASTM and CPSC guidelines. Our CPSI certified installers are insured specifically for playground installations. We are the answer for all of your playground installation needs and making the decision to work with us makes your project fast, easy and professional.

Installation Services Provided:

- Playground equipment installation including structures, swings, free standing play and more
- Site amenities including picnic tables, benches, bike racks and free standing and integrated shades
- Certified playground safety surfacing including engineered wood fiber, shredded bonded rubber, poured-in-place (PIP) rubber, loose fill rubber and artificial grass
- Installation of free standing playground shades of all types and sizes
- Existing equipment removal and disposal
- Project planning and timeline coordination
- Full service installation is recommended for commercial play systems

Contact our sales professionals for all of your playground installation needs at 866-628-0727 and request a quote.

- RECYCLED PLASTIC

- 9" OR 12" HEIGHTS
- 10-YEAR LIMITED WARRANTY
- WEEP VENTS FOR DRAINAGE

FunTimbers™

US Patent 6,418,675 B1

FunTimbers™ - Your answer to permanently maintaining safety surfacing. FunTimbers™ have rounded corners and no sharp edges, making them safe for any play area, and unlike untreated wood timbers, FunTimbers™ will never rot, decay, splinter or secrete poisonous arsenic.

Economical

FunTimbers™ are the most cost-effective, easy-to-install surfacing containment system for your playground. FunTimbers™ are constructed of polyethylene and are extremely durable, yet lightweight, and require far less labor than the conventional wood timber. Once installed, FunTimbers™ are virtually maintenance-free. Our 4' length is easier to work with than 6' timbers. This allows for unlimited varieties of design, and requires only 1 spike for secure installation. Our patented snap-in spike enables the FunTimber™ and spike to ship as one unit, which saves you time and money on installation and prevents loss in shipment.

9" FunTimber™ and Spike

FTB-00003

Actual Size: 4' 4" L x 9" H x 3" W

Weight: 10 lbs.

65 per pallet

Contact your local rep for quantity discounts.

12" FunTimber™ and Spike

FTB-00001

Actual Size: 4' 4" L x 12" H x 4" W

Weight: 12 lbs.

40 per pallet

Contact your local rep for quantity discounts.

FunTimbers™ Adjustable End Kit

US Patent 6,418,675,B1

Childforms® Adjustable End Kit contains (2) each Adjustable Ends and Filler Ends. By utilizing our Adjustable End Kit, you are able to modify our FunTimbers™ to a length less than 4' as needed. Example: one playground side is 38' long. To utilize our FunTimbers™; which are each 4' long, you would need (10) 4' FunTimbers™ and (1) Adjustable End Kit. You would then cut the tenth Funtimber™ to your exact length needed, and insert the Adjustable End and finish with the filler end. You get a clean, finished appearance which can be installed flush against existing walls, fences, etc...

12" Adjustable End Kit

ADJ-00001

2-Adjustable Ends and 2-Filler Ends

9" Adjustable End Kit

ADJ-00004

2-Adjustable Ends and 2-Filler Ends

6" Filler Ends

ADJ-00012

(used with 12" FunTimbers™)

6 Filler Ends per box

4.5" Filler Ends

ADJ-00009

(used with 9" FunTimbers™)

6 Filler Ends per box

ADA/Wheelchair Accessible Ramp Systems

U.S. Patent 6,418,675 B1

Childforms® patented wheelchair accessible ramp system is both cost-effective and easy to install. Designed to be used with our Funtimber™ containment system; the ADA ramp provides convenient access to the playground and helps to establish a clear entry-exit point to your playground. Each ADA ramp system includes (1) mounting log and the necessary spikes for anchoring and takes the place of (1) Funtimber™ around your play area border. The full 8", 9" and 12" ADA/Wheelchair ramps include an entrance and exit ramp; while our flush mount ADA ramp contains an entrance only, and is designed to be used when connecting to an existing sidewalk.

8" & 9" ADA Ramp System

ADA-00008

order with 8" or 9" FunTimbers™

12" ADA Ramp System

ADA-00002

order with 8" or 9" FunTimbers™

Flush Mount ADA Ramp

ADA-00005

works with either 8", 9" or 12" FunTimbers™

Dog Parks

Childforms® Dog Parks are one of our newest product lines. We offer a full line of dog play elements to help dogs get exercise, obedience training, and develop their social skills with other canine and human friends. Multiple play elements can be assembled in any configuration to create a doggy obstacle course to promote balance, agility and fitness. Dog park elements are made with the same quality and high strength components as our playground products.

Shade/Shelter

Shade Structures

Sun protection is an important safety concern on the playground. Our shade material deflects more than 90% of harmful UV rays and has been recognized by the Cancer Association of America. Our shade cloth allows heat to escape while blocking out UV rays, creating a cooler more comfortable shaded environment than solid-sheet roofing material and at half the cost! Our shades are also designed for hassle-free removal of fabric top with the EZ-Glide elbows.

Shade Fabric Colors

Terra Cotta

Actual colors may vary.

Shelters

We have been accepting design challenges from landscape architects and freelance designers in order to combine our classic construction with modern design. Our shelters, gazebos, pergolas, and mini shelters provide weather protection while allowing your space to become an architectural icon.

Warranty

Childforms® takes pride in offering one of the best warranties in the playground industry. Please contact us for specific warranty information and details. Installation of any playground equipment over a hard surface such as concrete, asphalt or packed earth may result in serious injury or death from falls. Childforms® recommends consulting the CPSC guidelines for surfacing and use zones for public playground safety. Pricing and specifications of Childforms® products are subject to change without notice.
